

Serial No.	Topics
1	Go-shala security for entrance with QR scanner at the time of cow feeding
2	Hostel Girls Safety application with notification to parents
3	warehouse multiuser stock maintaining system In Codeignitor
4	Online Ecommerce Website for jewellers like tanishq and P&G
5	online examination portal with MCQ's and Auto Answer detection
6	online chat website in php
7	Customized QR code Generator for social media marketing
8	Yogalaya: a Multiuser dynamic website for awareness of yoga
9	Blood Donation Awareness with the help of vendors and user offers and coupons.
10	Personal Counselling with hide persons Identity to avoid suicide in depression
11	Accident Detection using android console
12	Women safety app with access of android console
13	Disaster Notify Global Application
14	Medtalk- Intake medicine reminder
15	Akshay Patra- Food Collection and Delivery application to feed homeless
16	Smart Home Control App - Control lights, thermostats, security cameras, and more from a single app.
17	Mindfulness and Meditation App - Allow users to create personalized meditation sessions based on their preferences and goals.
18	Collaborative Music Creation App - Allow users to create music together in real-time, with features for recording and mixing.
19	Fitness and Wellness App - Use machine learning to provide personalized workout plans and feedback
20	Social Good App - Track and report environmental issues like pollution or deforestation.
21	AI Healthcare Bot System using Python
22	Chronic Obstructive Pulmonary Disease Prediction System
23	College Placement System Using Python
24	Face Recognition Attendance System for Employees using Python
25	Liver Cirrhosis Prediction System using Random Forest
26	Multiple Disease Prediction System using Machine Learning
27	Secure Persona Prediction and Data Leakage Prevention System using Python
28	Stroke Prediction System using Linear Regression
29	Toxic Comment Classification System using Deep Learning
30	Skin Disease Detection System Using CNN
31	Develop a comprehensive system to control and monitor various home appliances (lights, thermostats, security cameras) using IoT devices.
33	Smart Door Lock System are accessible via biometric sensors, electronic sensors, Bluetooth, etc.
34	Design a system to monitor and manage traffic flow in urban areas using IoT sensors and cameras.
35	Create an IoT-based system for efficient waste collection by monitoring waste levels in bins and optimizing collection routes.
36	Develop a system to monitor the status and performance of industrial equipment, predicting maintenance needs to avoid downtime.
37	Monitoring the heart rate and SpO2 levels have become critical in healthcare
38	Implement a network of IoT sensors to monitor environmental conditions like air quality, water quality, and noise levels.
39	Create an intelligent lighting system that adjusts based on occupancy and natural light levels to save energy.
40	Develop an IoT-based system to monitor and optimize energy usage in homes or commercial buildings.
41	Project on Attendance Management System
42	Project on A Trusted Choice
43	Project on Access a World of Information
44	Project on Airline Reservation System
45	Project on An Ultimate Web Site for Job Seekers
46	Project on AP Genco Mailing System
47	Project on Automobile Workshop System
48	Project on Blood Bank Management System
49	Project on Blood Donation Agent System
50	Project on Boob Tube Flourish
51	Advance car and scooty driving License

52	Industrial Subsidy website for new startups in india
53	Job Portal for students and TPO (Training and placement officer)
54	College Internal and students support system with teacher, account, principle and students panel
55	Nashik Munciple corporation education System
56	Forum (community website for engineering colleges) (buddypress)
57	College campus job fair hiring process (CMS)
58	E-commerce for perticular Niche
59	Matrimonial Website for marathi society only
60	Multi User and multi purpose B2B Inventory Management System
61	Virtual Reality Travel Experience - VR Tours: Provide 360-degree virtual tours of famous locations.
62	Remote Learning Assistance App - Provide tools for live video classes, homework submission, and grading.
63	Voice-Activated Note-Taking App - Speech-to-Text: Convert spoken words into text notes.
64	Customizable Habit Tracker - Allow users to set and track daily, weekly, and monthly goals.
65	Pet Adoption Platform -Showcase pets available for adoption with photos and descriptions.
66	Android Group Expense Tracker Application
67	Smart Health Consulting Android System
68	Android Sentence Framer Application
69	Android Expense Tracker
70	Android Multi Layer Pattern Locking Project
71	Signature Verification System Using CNN
72	Heart Failure Prediction System
73	Yoga Poses Detection using OpenPose
74	Credit Card Fraud Detection System Python
75	Automatic Pronunciation Mistake Detector
76	Learning Disability Detector and Classifier System
77	AI Mental Health Therapist Chatbot
78	Ecommerce Fake Product Reviews Monitor and Deletion System
79	Smart Time Table Generation Flutter App Using Genetic Algorithm
80	Chatbot Assistant System using Python
81	Develop an IoT system to monitor wildlife activities and their habitat conditions using sensors and cameras.
82	Create a system for urban farming that monitors plant health and optimizes growing conditions using IoT sensors.
83	Develop a network of IoT sensors to monitor and report air quality in urban areas.
84	Develop a smart bike lock that can be controlled via a smartphone app, featuring GPS tracking and theft alerts.
85	Develop a smart trash can that monitors its fill level, compacts the waste, and notifies the waste management service when it's full.
86	IoT-based air pollution monitoring systems can monitor the level of air pollution in cities and save the data on web servers for future use.
87	This will alert the management to take the necessary steps for ensuring the workers' safety.
88	Analyze the moisture level of the soil and the climatic conditions and automatically water the field as and when required.
89	To identify the causes of fire threats and take immediate measures to prevent those
90	To maintaining appropriate moisture levels, the system promotes healthier and more productive plants.
